

# Make it Snappy<sup>®</sup> Tools

Premium Power Tool Accessories  
Proudly Made in the USA

## About Us

**F**ounded in 1962 in our grandfather's basement in Minneapolis, Minnesota, we are a family-owned company, currently operating in Texas. We manufacture premium drilling accessories for use in power drills, impact drivers and drill presses.

The 1/4" hex power bit shaft found on most of our tools has become an industry standard, being accepted in quick change chucks and impact drivers everywhere. Our namesake is the "snap" that's heard when a drill bit, driver bit or other tool is pushed into our patented quick change chuck. By utilizing the quick change system, craftsmen and hobbyists can easily transition from pre-drilling to driving screws.

Whether for daily use on the job or personal use around the house, professionals and homeowners both demand the most out of their power tools and accessories. By using superior materials, cutting-edge machinery and patented technology, we deliver industrial quality tools at an affordable price, "Proudly Made in the USA".

- Quick Change Chucks • Gold Screw Countersinks • Drill Bit Adapters •
- Tapered Drill Countersinks • Self-Centering Hinge Bits •
- Shelf-Pin Drill Guides • Tapered Plug Cutters • And More •

## SD-3 Flat Bottom Counterbores

# NEW!

- Drill a pilot hole or clearance hole and counterbore a flat bottomed hole in one step
- Great for lag screws, lag bolts, washer head screws, T-nuts & more
- TiN (Titanium Nitride) coated twist drill offers superior wear resistance
- Made of thru-hardened alloy steel for long cutting life
- Precision machined with integrated 1/4" hex shank
- The unique geometry of the cutters provide excellent chip clearance and cutting performance, even in hardwoods
- Available counterbores are 1/2", 5/8", 3/4", & 1"

•Designed•  
•Machined•  
•Assembled•  
in the **USA**

## Carbide Tipped Countersinks

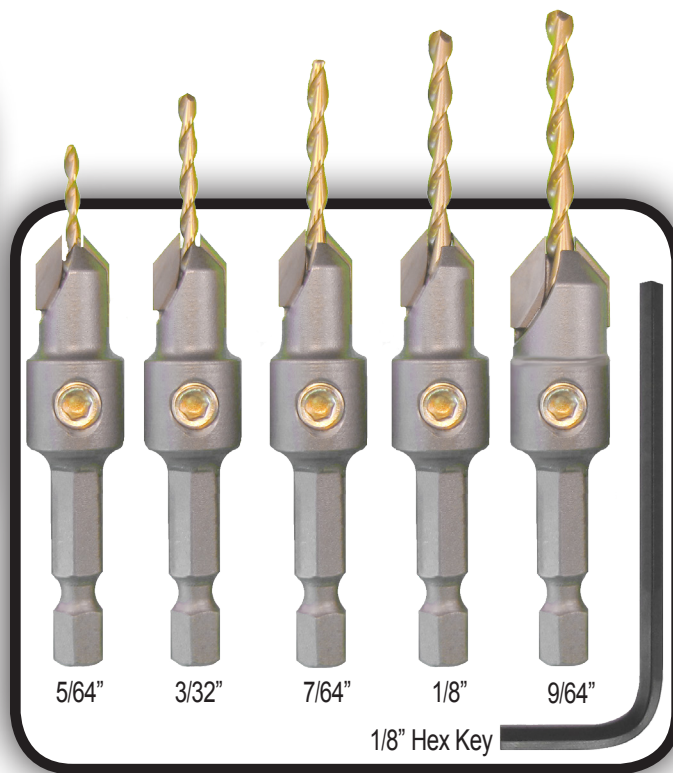

\*Made in Israel\*

# NEW!

- The TCT (Tungsten Carbide Tipped) cutters provide superior wear resistance and cut a clean countersink or counterbore even in tough materials
- Special twist drills feature a TiN (Titanium Nitride) coating for long life and parabolic flutes for more chip clearance
- Features an 82° countersink angle, the same angle as on the head of most wood screws
- Countersink to keep screw heads flush with or slightly below the surface
- Counterbore to drive screw below the surface and plug the hole

•Perfect for laminate countertops, melamine, exotic hardwoods and other tough materials

**5 Piece Set**  
**Part # 46030**

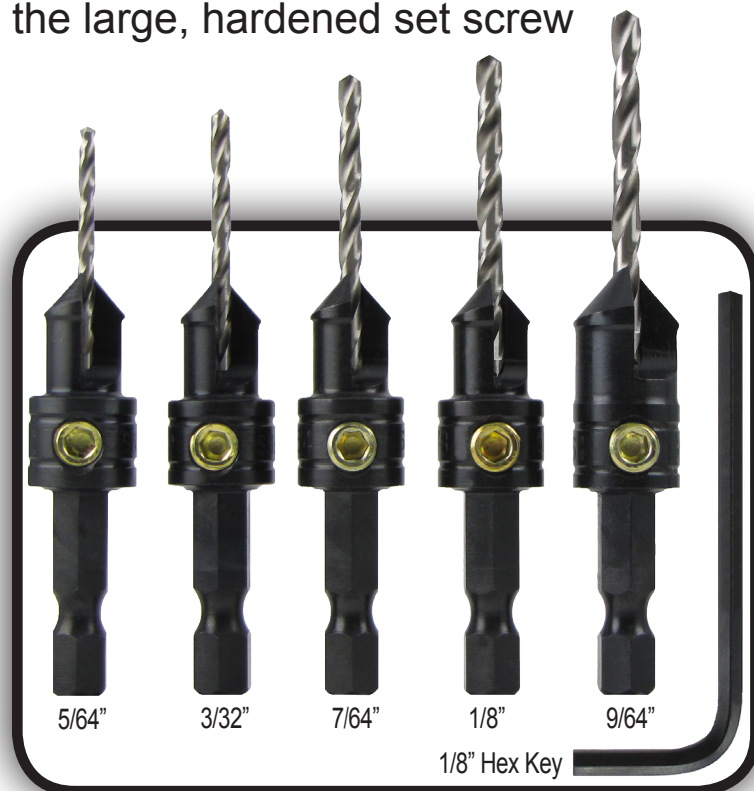

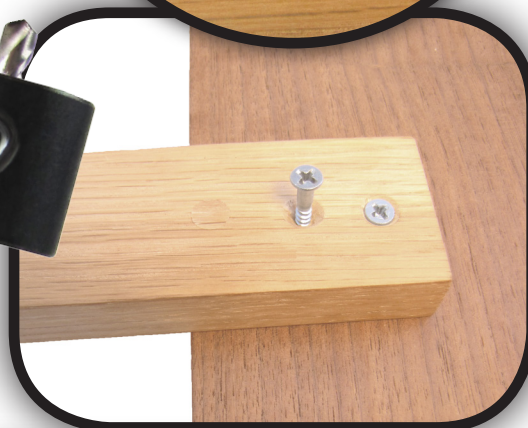

## Gold Screw Countersinks

Our most  
popular item!

- Drill the pilot hole and countersink or counterbore for screws. Countersink to drive the head of the screw flush with or slightly below the surface
- The 82° countersink angle matches the angle on the head of most wood screws. Easily control depth using an optional stop collar
- Precision machined with tight tolerances. The one-piece design ensures concentricity and a consistent counterbore. Works with **Snappy**® quick change chucks or any tool designed to accept a 1/4" hex shank
- Made of alloy steel and heat-treated to HRC 52-56 providing long cutting life and can be resharpened
- Our signature gold set screw will securely hold the twist drill without slippage. Easily adjust the pilot depth or replace a dull bit by simply loosening the large, hardened set screw

**5 Piece Set  
Part # 40030**

•Designed•  
•Machined•  
•Assembled•  
in the **USA**

# Tapered Drill Countersinks

- Drill a pilot hole and countersink or counterbore in one step
- Use for tapered screws or as a clearance hole for straight screws
- Made of thru-hardened alloy steel for long cutting life and can be resharpened
- Precision machined to work with **Snappy®** quick change chucks or any tool designed to accept a 1/4" hex shank
- Two large hardened set screws securely hold the countersink to the tapered drill to prevent slippage
- Countersink to keep screw heads flush with or slightly below the surface
- Counterbore to drive screw below the surface and plug the hole

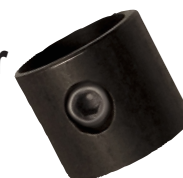

•Designed•  
•Machined•  
•Assembled•  
in the **USA**

**3 Piece Set  
Part # 40040**

**3/8" Stop Collar  
Part # 43124**

- Use an optional depth stop to easily control depth of countersink

## Tapered Plug Cutters

- Use **Snappy®** tapered plug cutters to cut your own plugs to conceal screws and other fasteners. Use scraps to match wood grain, making the plug nearly invisible or, for a decorative look; use a contrasting wood
- Snappy®** plug cutters produce a tapered plug, so you get a tight fit with no glue needed. The chamfered nose makes it easy to get the plug started into the bore
- Four precision-milled angles on each of the four flutes ensure a smooth cut and a tight-fitting, consistent taper
- Heat-treated to provide excellent wear resistance and a long cutting life

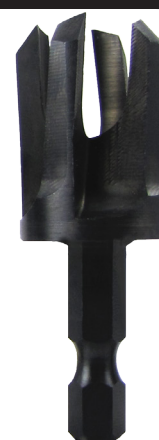

•Designed•  
•Machined•  
in the **USA**

1/4"

3/8"

1/2"

**3 Piece Set  
Part # 43300**

# Self-Centering Hinge Bits

- Use self-centering hinge bits to accurately drill pilot holes in hinges, handles, drawer slides and other hardware
- Ensures screws will be straight and flush for proper mounting of hardware
- The knurled barrel easily unscrews to clean out shavings that may get into the body of the tool
- The hardened nose bushing centers itself in hardware for a perfectly-centered pilot hole
- Large, hardened set screw securely holds twist drill and allows easy replacement
- Precision machined to work with Snappy® quick change chucks or any tool designed to accept a 1/4" hex shank

## 3 Piece Set Part # 45300

•Designed•  
•Machined•  
•Assembled•  
in the **USA**

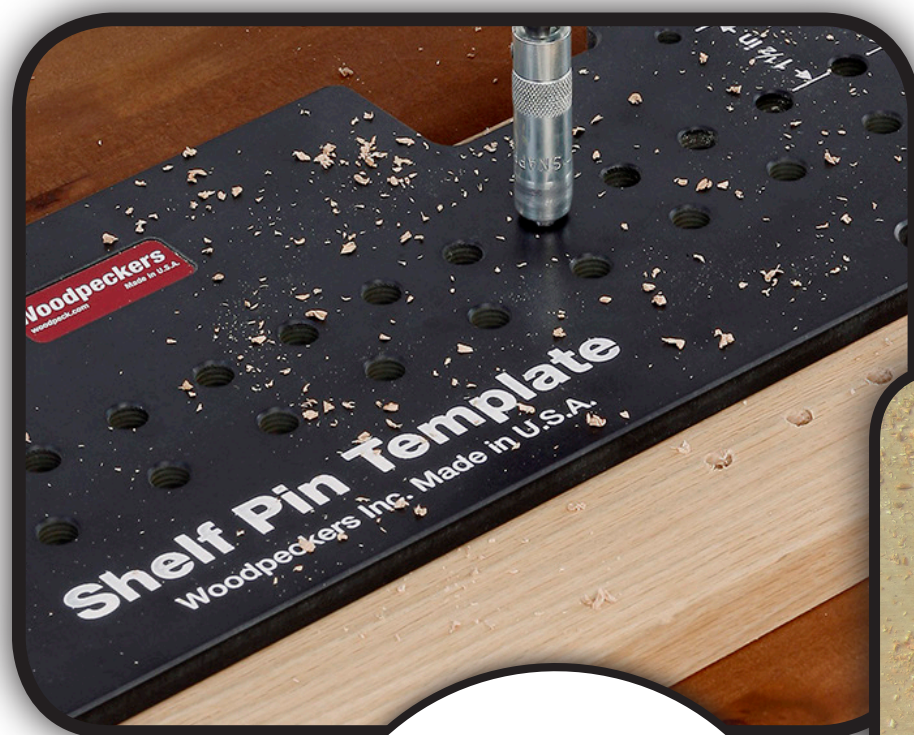

## Shelf Pin Drill Guides

•Use **Snappy®** shelf pin drill guides to drill holes for shelf pins

•The hardened 3/8" nose bushing fits into the holes of shelf pin jigs. When drilling, the nose retracts for perfectly-aligned and straight holes, drilled to the proper depth everytime

•Designed•  
•Machined•  
•Assembled•  
in the **USA**

•Our specially made HSS brad point drill ensures sharp, clean-cut holes

For 1/4" shelf pins use  
**Part # 46016**

For 5mm shelf pins use  
**Part # 46005**

## Drill Bit Adapters

•**Snappy®** drill bit adapters utilize a collet to adapt standard round drill bits to a 1/4" hex power bit shank to be used in quick change chucks and other tools designed to accept a 1/4" hex shank, like impact drivers

•Available individually for most standard twist drill bit sizes from 1/32" up to 3/8"

•Each adapter is heat-treated to a specific hardness to provide durability, while still maintaining the collet's ability to compress around the drill bit

•Securely holds a round drill bit of the rated size to 1/64" smaller

•Use the 3/8" adapter for pocket hole step drills!

### Part # 42024

\*Step Drill/Drill Stop not included\*

•For drill replacement, simply unscrew the collet nut then remove and discard only the dull bit. Use the shank socket to protect the 1/4" hex shank

•Designed•  
•Machined•  
•Assembled•  
in the **USA**

## Quick Change Chucks & Extensions

### Industrial Quick Change Chuck Part # 40011

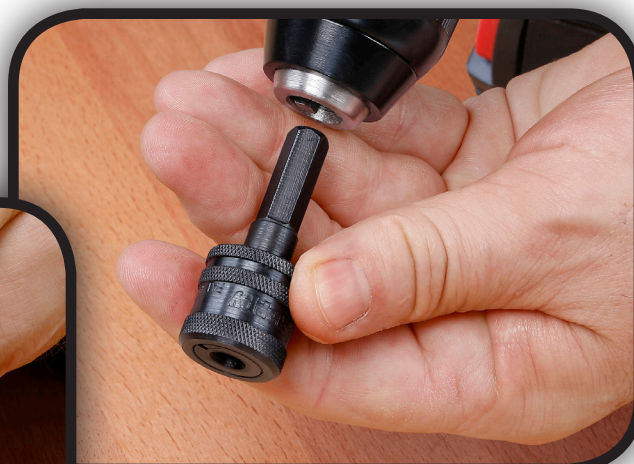

- Our patented Snappy® quick change chuck accepts all tools with a 1/4" hex power bit shaft, allowing fast changes between drilling and driving
- Durable all steel construction, heat-treated for excellent wear resistance and strength
- Simply pushing the bit in will lock it firmly into the drive channel with a hardened chrome ball bearing

- Can be used in any keyed or keyless 3-jaw chuck

- Quickly remove the bit by pulling back the knurled sleeve

\*Insert\*  
Bit

\*Power\*  
Bit

- Quick change extension chucks extend the reach of your drill and allow access to tight spaces
- Our extension chucks accept 1/4" hex insert bits as well as 1/4" hex power bits. Both are locked into the drive channel with a uniquely-formed, tempered spring

### 3 Inch Extension Part # 40013

### 6 Inch Extension Part # 40016

- Designed•
- Machined•
- Assembled•
- in the **USA**

## Premium Pouches & Combination Sets

### 26 Pc. Impact Accessory Set Part # 47026

A vital companion for impact drivers

- (7) Drill Adapters with HSS twist drills (3/32" - 3/8")
- (3) Gold Screw Countersinks (7/64" - 9/64")
- (6) 2" Driver Bits (#1, 2 & 3 Phillips & Square)
- (2) 6" Driver Bits (#2 Phillips and Square)
- (2) Socket Drivers (1/4" & 3/8")
- (3) Magnetic Nut Drivers (5/16", 3/8" & 7/16")
- (1 Ea.) Shank Socket + 3/8" & 1/2" Stop Collars
- (2) Hex Keys to adjust countersinks & depth stops
- (1) Rugged no-rip nylon pouch-organizes and protects your tools in the shop or on the job site

### 7 Pc. Drill & Drive Set Part # 48352

- Everything you need to countersink and plug screw holes

### Premium Countersink Set Part # 48010

**Make it  
Snappy®  
Tools**

Premium Power Tool Accessories  
Proudly Made in the USA

## Premium Pouches & Combination Sets

• Keeps your tools organized and protected

• Use the brass grommet to hang the pouch on a pegboard or screw

### 25 Pc. Premium Set Part # 48025

Includes all of our most popular tools

- (7) Drill Adapters with HSS twist drills (1/16" - 1/4")
- (5) Gold Screw Countersinks (5/64" - 9/64")
- (6) 2" Driver Bits (#1, 2 & 3 Phillips & Square)
- (1 Ea.) Shank Socket + 3/8" & 1/2" Stop Collars
- (2) Hex Keys to adjust depth of countersink(bore) & length of twist drill
- (1) Our Patented Industrial Quick Change Chuck
- (1) Rugged no-rip nylon pouch with velcro closure, brass grommet, carry handle, belt loop & small-parts pocket

• Make pocket hole joinery  
**Snappy®**

\*Step Drill/  
Drill Stop not  
included\*

### Pocket Hole Adapter Set Part # 42462

# Festool® Centrotec® Compatible Accessories

**1/8" x 3/8"  
Countersink  
Part # 93008**

- Drilling and driving tools manufactured at close tolerances to fit Festool® Centrotec® chucks
- Sure to satisfy the demands of the most faithful Festool® user. We've combined their proprietary drive shank, designed for reduced run-out, with the proven performance of Make it Snappy® Tools

## •Gold Screw Countersinks•

(3/32", 7/64", 1/8", 9/64" & 1/8" x 1/4")

- Drill the pilot hole and countersink or counterbore for standard wood screws. Made of thru-hardened alloy steel for long cutting life

## •Drill Bit Adapters•

(1/8", 5/32", 3/16", 7/32", 1/4" & 3/8")

- Each collet adapter will securely hold any round drill bit of the rated size to 1/64" smaller

## •Square Driver Bits•

(#1 x 3", #2 x 3" & #2 x 6")

- Driver bits for popular square drive screws feature a hardened insert tip for durability

## •Self-Centering Hinge Bits•

(7/64", 9/64")

- Pre-drill for perfectly-straight, centered screws when mounting hinges, drawer slides and other hardware

## Gold Screw Countersink Set Part # 93052

•Designed•  
•Machined•  
•Assembled•  
in the **USA**

**3/16" Drill Bit Adapter Part # 92012**

**#2 sq x 3" Driver Bit Part # 95312**

**9/64" x 1/2" Countersink Part # 93009**

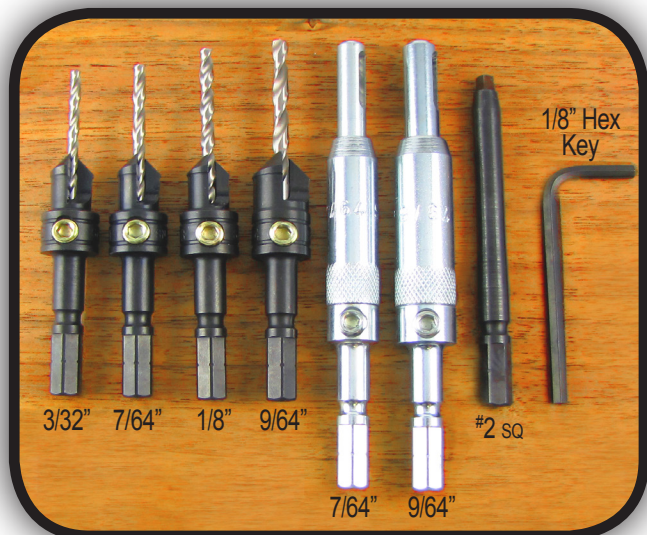

**9/64" Self-Centering Bit Part # 95109**

**#2 sq x 6" Driver Bit Part # 95612**

**Cabinet Maker's Set  
Part # 93572**

**1/8" x 1/4"  
Trim-Screw Countersink  
Part # 93258**

•Use with the  
#1 sq Driver Bit  
for Trim-Head  
Screws  
**Part # 95311**

**5 Pc. Drill Adapter Set  
Part # 92050**

•Use a shank  
socket to protect  
the hex shank  
when replacing  
twist drills

**Handyman's Set  
Part # 92352**

**3/8" Drill Bit Adapter Part # 92024**  
\*Step Drill not included\*
