Make it Snappy Tools

Premium Power Tool Accessories
Proudly Made in the USA

About Us

Founded in a basement machine shop in Minnesota in 1962, we are a family-owned company, currently operating in Texas. We manufacture premium drilling accessories for use in power drills, impact drivers and drill presses.

The 1/4" hex power bit shank found on most of our tools has become an industry standard, being accepted in quick change chucks and impact drivers everywhere. Our namesake is the "snap" that's heard when a drill bit, driver bit or other tool is pushed into our patented quick change chuck. By utilizing the quick change system, craftsmen and hobbyists can transition from pre-drilling to driving quickly and easily.

As a 3rd generation family business, we take great pride in each product we provide. By using superior materials, cutting-edge machinery and patented technology, we deliver industrial quality tools at an affordable price, "Proudly Made in the USA".

iCARB

INDEXABLE CARBIDE COUNTERSINK

Sharper, Tougher, Longer

•Solid carbide cutting edges stay sharp longer so you can take on the most challenging, abrasive materials with ease - without sacrificing cut quality

Industry Leading Performance

•Unmatched durability & service life

Revolutionary New Design

•Precision machined countersink body with indexable & replaceable solid carbide inserts

Reduced Replacement Cost

•Tool body can be reused again & again

Premium TiN Coated Twist Drill

•Improved heat resistance, chip flow & tool life

Perfect for Hardwoods

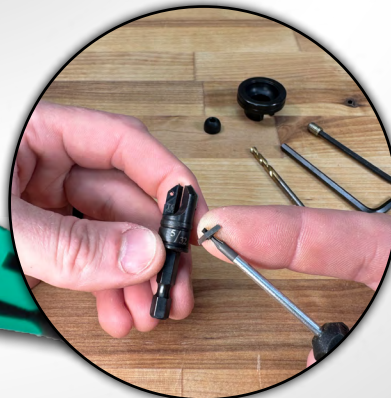

•Ipe, Hard Maple, Jatoba, Teak... No Problem!

4 Sizes Available

•7/64", 1/8", 9/64", 5/32" each with a 1/2" counterbore

IRONMAN DRILL BIT ADAPTERS

Fast penetration Ideal for "punch drilling" in hard, tough sheet metal

•Designed•
•Machined•
•Assembled•
in the USA

- Precision machined 1/4" hex shank adapter for use with 3-jaw chucks, quick change chucks, or impact drivers
- Sturdy, screw machine length HSS twist drills are **Made in the USA** and have a Heavy-Duty surface treatment for increased wear resistance and edge toughness
- 135° split point resists walking for accurately located holes

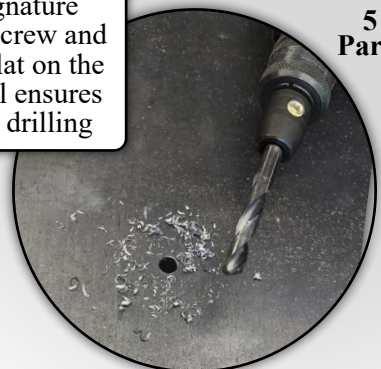

Purpose Built for demanding metalworking, fabrication, installation, and maintenance jobs

5 Pc. Set
Part # 40022

Our signature gold set screw and locking flat on the twist drill ensures slip free drilling

* 1/4" Reduced shank

•Drill the pilot hole and countersink or counterbore for screws in one easy step. Countersink to drive the head of the screw flush with or slightly below the surface

•The 82° countersink angle matches the angle on the head of most wood screws. Easily control depth using an optional stop collar

•Made of thru-hardened steel for long cutting life

•Our signature gold set screw will securely hold the twist drill. Easily adjust the pilot depth or replace a dull bit by simply loosening the large, hardened set screw

•Designed
•Machined
•Assembled
in the USA

Consistently countersink or counterbore with the
Premium Rotating Depth Stop

Part #
43032

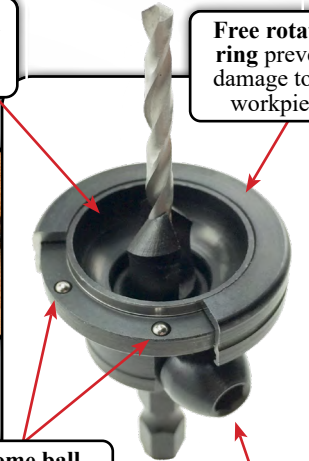

Twist Drill/Countersink not included

Unique mounting channel allows the depth stop to be used with all 3/8" and 1/2" Snappy™ countersinks

Large radiused cavity reduces chip packing

Free rotating ring prevents damage to the workpiece

Precision chrome ball bearings allow the ring to rotate freely when the desired depth is reached

Specially designed clamping nut securely mounts the stop to the countersink to ensure consistent depth

Part # 32408

•Designed•
•Machined•
•Assembled•
in the USA

- Drill a pilot hole or clearance hole and counterbore a flat bottomed hole in one step
- Great for lag screws, lag bolts, washer head screws, T-nuts & more
- TiN (Titanium Nitride) coated twist drill offers superior wear resistance
- Made of thru-hardened alloy steel for long cutting life
- Precision machined with integrated 1/4" hex shank
- The unique geometry of the cutters provide excellent chip clearance and cutting performance, even in hardwoods

† Works with Part # 33164

Part # 34816

Shown with Stop Collar (not included)

Part # 33164

Fits 3/4" & 1" Flat-Bottom Counterbores

Part # 36416

Shown with Stop Collar (not included)

- Use **Snappy™** tapered plug cutters to cut your own plugs to conceal screws and other fasteners. Use scraps to match wood grain, making the plug nearly invisible or, for a decorative look, use a contrasting wood
- **Snappy™** plug cutters produce a tapered plug, so you get a tight fit with no glue needed. The chamfered nose makes it easy to get the plug started into the bore
- Updated design featuring radial relief on the inside diameter of the cutter for reduced drag and improved performance. Precision-milled cutting edges and outer reliefs ensure a smooth, clean cut for a consistent, tight-fitting plug
- Thru Hardened to provide excellent wear resistance and a long cutting life
- Always cut to the full depth of the cutter until a radius or chamfer can be seen, clearing chips as needed

•Designed•
•Machined•
in the USA

3 Pc. Set
Part # 43300

- Insert chamfered end first and drive the plug into bore. Trim excess flush with surface using a chisel or flush cutting saw and finish sand

• The plug remains in the board and can be broken out with a screwdriver (or Plug Popper!) or can be sawed to free the plug

1 Inch Plug Cutter
Part # 40364

Plug Popper

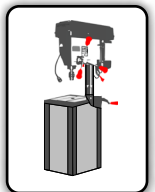

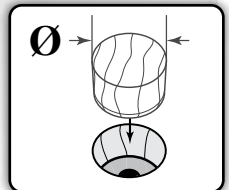

Part # 42432

•POP OUT 3/8" and 1/2" plugs with ease!

• For use in drill press only, with board clamped to table

- Drill a pilot hole and countersink or counterbore for tapered wood screws in one step
- Use for tapered screws or as a clearance hole for straight screws
- Made of thru-hardened alloy steel for long cutting life
- Precision machined to work with **Snappy™** quick change chucks or any tool designed to accept a 1/4" hex shank
- Two large hardened set screws securely hold the countersink to the tapered drill to prevent slippage

**3 Pc. Set
Part # 44300**

- Countersink to keep screw heads flush with or slightly below the surface
- Counterbore to drive screw below the surface and plug the hole

- Machined
- Assembled in the USA

PATENT PENDING

ACB Countersinks (Adjustable Clearance Bore)

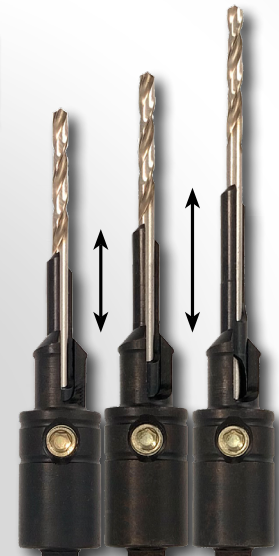

Perform three steps with one operation

Use with the **Snappy™** 9/16" ID Premium Rotating Depth Stop for precise depth control!

- 1 • Drill a Pilot Hole**
 - Allows your wood screw to engage just the right amount of material to avoid splitting and cracking
- 2 • Cut a clearance hole in top board**
 - A clearance hole is large enough for the screw to pass through the top board without the threads engaging it, preventing separation and shifting during assembly
- 3 • Countersink or Counterbore**
 - Countersink into the top board to allow the head of the screw to sit flush with the surface of the board. Or counterbore farther to set the screw below the surface allowing you to plug the hole

•Features•

- Three sizes available - #8, #9, & #10
- Clearance bore is adjustable for a 1/2", 3/4", 4/4" thick stock
- Can also be used in 1-1/2" thick lumber if counterboring into the workpiece
- Special, long length HSS twist drills
- Countersink body and boring blade are made from thru-hardened alloy steel for long cutting life
- The boring blade has an oversized flute for excellent chip clearance and a back taper to minimize friction

Depth of Clearance Bore is adjustable from 1/2"-1"

ACB Countersinks	Part #	Drill Size (D1)	Clearance Bore (D2)	Counterbore Size (D3)	Recommended Screw Size	List Price

Quick Change Chucks & Bit Organizers

Drill Bit Adapters

- Our patented **Snappy™** quick change chuck allows fast changes between drilling & driving
- Accepts all tools with a 1/4" hex power bit shank
- Durable all steel construction, heat-treated for excellent wear resistance and strength
- Simply pushing the bit in will lock it firmly into the drive channel with a hardened chrome ball bearing
- Quickly remove the bit by pulling back the knurled sleeve

Part # 40011

•Designed•
•Machined•
•Assembled•
in the USA

Part #	Description	List Price
40011	Snappy™ Industrial Quick Change Chuck	\$16.58
18075	Small 3D Printed Benchtop/Wall Mount Bit Organizer (Empty) - Holds: 51 – 1/4" Power Bit Shank Bits, 13 – 1/4" Insert Bits, 2 – 11/32" Hex Shank Tools, 9 – Hex/Torx Keys	\$19.99
18127	Medium 3D Printed Benchtop/Wall Mount Bit Organizer (Empty) - Holds: 95 – 1/4" Power Bit Shank Bits, 16 – 1/4" Insert Bits, 2 – 11/32" Hex Shank Tools, 14 – Hex/Torx Keys	\$27.99
18166	Large 3D Printed Benchtop/Wall Mount Bit Organizer (Empty) - Holds: 128 – 1/4" Power Bit Shank Bits, 16 – 1/4" Insert Bits, 2 – 11/32" Hex Shank Tools, 20 – Hex/Torx Keys	\$39.99

Part # 18075

Part # 18127

- Snappy™** drill bit adapters utilize a collet to adapt standard round drill bits to a 1/4" hex power bit shank to be used in quick change chucks and other tools designed to accept a 1/4" hex shank, like impact drivers

- Use the 3/8" adapter for pocket hole step drills!

Part # 42024
Step Drill/Drill Stop not included

Laser engraved for easy identification!

Drill Bit Adapters

* Twist drill not included when purchased individually

Industrial Driver Bits

• Premium quality industrial driver bits. All with a 1/4" hex power bit shank for fast changes between drilling and driving

Part # 72123

MAG-A-BIT

Part # 63222

• Make dropped and lost screws a thing of the past! Slide the **MAG-A-BIT** magnetizer onto the driver bit or screwdriver of your choice to magnetize the bit and firmly hold the screw

• The unique design of the precision-machined stainless steel ring allows the **MAG-A-BIT** to be used on 1/4" hex shanks as well as on much smaller driver bits and screwdrivers because the three powerful neodymium magnets housed inside the ring have freedom to move as much as needed while not falling out

Part #	Description	List Price
52123	#1,#2,#3 Square x 2" Driver Bits (2 Pcs. Each)	\$9.23

MAG-A-BIT (2-Pack)
Part # 70026

Make it Snappy Tools

3 Pc. Set
Part # 45300

- Use self-centering hinge bits to accurately drill pilot holes in hinges, handles, drawer slides and other hardware
- Ensures screws will be straight and flush for proper mounting of hardware
- Use **Snappy™** shelf pin drill guides to drill holes for shelf pins
- The knurled barrel easily unscrews to clean out chips that may get into the tool's body
- Precision machined to work with **Snappy™** quick change chucks or any tool designed to accept a 1/4" hex shank
